

A package worth €000's

Our pet nutrition package for pet food manufacturers has gifted one of our clients €100,000 this year. It could do the same for you.

As specialists in pet nutrition, optimising your brand's pet food and profitability is at the heart of our **Premier Pet Nutrition Package**. It comprises a number of gifts that help pet food manufacturers add nutritional superiority and profitability to their pet food.

Bespoke Pet Premixes

All pet premixes are formulated to give you enhanced nutritional and commercial results and are manufactured in our ultra-safe, pet dedicated, residue-free tumble mix system.

Pet NIR Calibrations

Our world-leading calibrations (including cook level / starch gelatinisation) will give you the most rapid and accurate analysis of your pet food and raw materials. This will enhance your product quality whilst reducing your energy and external analysis costs.

Pet Food Advice

Our team of pet nutritionists will review and advise you on how to innovate your pet food formulations and optimise your premix specifications. This could save you thousands.

Pet Nutrition Training

Continually improve your own understanding of pet nutrition, EU regulations, functional ingredients and marketing claims with our bespoke on-site training sessions.

Contact us to find out how the Premier Pet Nutrition Package could help you to add nutritional superiority and profitability to your pet food.
